

1. THE PENDULUM PROOF

A and B standing next to each other. B keeps his heels joint.
1. A pushes on B's hand pressing on it with a progressive strenght. B resists but without Point Break he easily looses his balance and falls aside.
2. Repeat the experiment but now B wears a Point Break bracelet. A pulls again B by his hand with the same progressive strenght but now B keeps his equilibrium and stays longer balanced.

2. THE CRANE PROOF

A and B standing next to each other. B has his arms spread aligned with his shoulders and he stays on a leg only.
1. A pushes on B's hand pressing on it with a progressive strenght. B resists but without Point Break he easily looses his balance and falls aside.
2. Repeat the experiment but now B wears a Point Break bracelet. A pulls again B by his hand with the same progressive strenght but now B keeps his equilibrium and stays longer balanced.

3. THE RUSH PROOF

A and B standing. A stays behind B. B has his heels joint and the hands clapsd behind.
1. A pushes on B's hands pressing on them with a progressive strenght. B resists but without Point Break he easily looses his balance and falls backwards.
2. Repeat the experiment but now B wears a Point Break bracelet. A pulls again B by his hand with the same progressive strenght but now B keeps his equilibrium and stays longer balanced.
